

METHOD AND SYSTEM FOR ELECTRONICALLY QUALIFYING SUPPLIER
PARTS

ABSTRACT OF THE DISCLOSURE

An exemplary embodiment of the invention relates to an
5 integrated computer-based method and system for facilitating
part qualification. This computer-based method and system
includes a host system receiving a request from a user
system to execute part qualification software, executing the
requested software at the host system, sending results of
10 the software execution to the user system, receiving input
at the host system from the user system in response to the
software execution, and providing the user system with
output generated as a result of executing the software.
